# Leaving The Third Dimension

The University Papers Volume 70, #87

## The Higher Man Will Rise

The nature of God in man will be revealed. The GodSelf (I AM) is manifesting Itself in the range of frequencies called the Fifth Dimension, a dimension where Man and God are One. This is only the beginning, of course, of joining the vibrations of the human mind and the divine. We now will see great activity in the brain cells within humanity as new keynotes are felt and understood to be the new age of science and Spirit.

The God Mind is present. You are initiated into It by life energies of the Mother or the Kundalini Force. The release of this Energy into light charges man with reason, right action and

agreement with the Divine Plan.

You (humanity) have been sadly misled many times over. There are new records to be found within you that - if you are willing - can and will release you from finite life. We, who are in this University, serving at this time on Earth, will assist in the opening of these records and the rediscovery of the solar plane, activity of God life.

## The Revealmnt Of The Real Self

Surrender your "self" up into the higher spheres of Be-ing so that you can know who you are. Release the old self. Let go that God (Living Light) might be higher intelligence in you. Experience the GodSelf now in your own being. Let us remember who we are and why we are here on this planet Earth. Let us know that we have come to do a work of the Light. The Christ manifestation is you.

Let that whole concept of who you think you are rise up into Divine Intelligence IAM. Create from that point of unity. Live from that place. Claim your God identity *now*. Just Be on a different sphere with Me. We are One. You are human no longer. Let the world as you have known it pass. Give yourself to the Fifth Dimension. Live comfortably in the light.

Start living in the light radiation of this new dimensional frequency. Then, I AM as the Presence, Divine Energy, everywhere. My Divine Personality is felt and witnessed in every tree, through the blades of grass and in every flower. Every hill proclaims My Presence now.

Self realize now who you are, why you are here. Listen and become aware of your own being in a vibration of total light. Why contain yourself in such a small sphere when I offer you the whole. I AM gladness itself. In Me you will know happiness and spread your joy to others. It will become infectious then. How can anyone resist the laughter and joy that is contained within Me?

The Incoming Light is the Presence, the Presence is the Light. We are One. I shall not be closed off any longer. I will have Myself alive on Earth and throughout the Cosmos. I have come to know Me in you. Let this be the sacred song of your inner being.

Release the false pictures on planet Earth. Then forms will have no meaning. You will be loosed and you will be free. You

will roam the hills and the valleys, God apparent on your brow.

What a wondrous day I offer you! What a wondrous life!

In Me there is no shame, for I AM perfect.

## The Path Of The Initiate

There is a strong call being heard and felt in the land. It is the clear Voice of the indwelling Spirit that says, "Give up the human personality." Many are discerning this Voice. It is a clear instruction, an important instruction, as the Great Wave of Initiation pours across this planet. This human personality, which is subject to dogma of all kinds, is also attached to home, family, the workplace, all that seems to be a part of this third dimension. We are throwing these covers off our body now as it is time - the Call has gone forth - to inhabit the World of Light. The light world waits for your conscious awareness. New light fields are ready to attach to your being and carry you into new rhythms of body and mind. A world of light awaits you!

All the third dimensional preferences must be now offered up into light, for the new dimension is upon us. These preferences, people, places, activities that we love and think we need is the out picturing of the third dimension and the

*continued from page 2*

human personality. *I will rock it until it falls away. I will give you My Vibration that you might know who I AM in you. I will sit you upon a new place and in a new rhythm I will Be.*

*I have constructed you so that you will accept Me now. As I have planted My Christ Seed in your heart, so I can rise from that Seed as your identity. I give you My Being that I might Be.*

What does it mean to "Take your mind off the problem and put it on God"? Who and what is this God? For some "God" is a very narrow, limited God. Not Godlike at all.

### Join The Circle

The Circle is the Creator, all the living parts of the whole breathing the Spirit Life of Itself. You are initiated into this Circle when you are ready. When you are ready you can become a part of this Circle. It is a rhythm and it is a Personality too. So many miss this. Let's try and find it now. Let us enter the Circle and experience it.

To be initiated into the Circle, one must love life. One must keep in

mind that everything is divine. There is sacred light in everything and through everything, God lives. This is the program of the universal. It is the full moon and the great sun. You have but to listen to know this. The great giant trees will tell you of this and so will all the children on this earth.

When there seems to be an obstacle in your path or an anxiety, it is a clue that you are out of harmony. You have broken away from the circle, the eternal circle of Be-ing. The Spirit is the Circle. It is the quality of unity within all life.

It is a world of harmony that has been created for you to experience. A wonderful world of oneness where everything is at one with one another because of the unity in everything and all life. It is a joyous energy of love.

And so, anxiety is just an indicator. It says to you, "Get back in the circle!" Remember that within the circle is the squirrel and the snake and the wind and the river and everyone and everything. It is all there in the circle. People act differently when you remember the circle.

*continued on page 4*

# Leaving The Third Dimension

In the circle that contains everything and everyone, nothing is above and nothing is below. It is Spirit.

And then remember that Mother Earth feeds you and nourishes you. She is part of the circle. She must be gathered up into your heart. If you subscribed to The Seed<sup>1</sup>, you will recall a recent issue where it speaks about the Mother Spirit who actually interlaces Herself through the planet and vibrates through her. The Mother Realm is planetary as well as spiritual. The Mother Principle vibrating through the Earth is abundance, healing, beauty, love. But in order to experience this beautiful expression of the Mother, we must return to the circle. The wheel of life. When we can do that with a humble heart and a respect for all life, the wheel starts to turn again, abundance returns. We are fed by the planet and the Spirit. We experience seeming miracles, the light of Christ unity.

Take the problem and release it to the Universe. Then it is not *your* problem. It becomes an exercise for the whole. When you make something *yours* you are out of the circle, the wheel ceases to move. The Holy Spirit is everything at one. It never leaves Itself. It is together. It is loving Itself in everything. And no thing is forgotten nor separated from the

*continued from page 3*

whole. Only man can separate. The life that is God is not separate from anything or anyone. God is everything, through everything and is only conscious of that Spirit as Itself. God as Presence or Creator does not join man in separateness. Man (consciousness) must return to his/her GodSelf to find wholeness. Then the wheel will turn. The light will shine. The joy will bounce from your heart. And in this way do you know IAM. Go Home!

The wheel is the next dimension of life that you will be experiencing as human beings. You will be cut off from the lower dimensions and rhythms. Sacred will be your life in Me!

The wheel represents community in the full sense of the word. Here the placement is always on the Oneness at the creative level. You will be learning to live in the raised consciousness of your Higher Self, the Self that decrees "IAM". It is a different way of thinking that is coming...a different way of perceiving. A new octave, a new wave length.

But how can we go to this place if we are hanging onto the human personality, our "self"? It is necessary to let go and be what we have come here to be: the resurrection and the life. And we have come to do this. We have come to be the resurrection and the life in identity, form and rhythm.

*Now, let go and see that I AM within you as I AM.* (In a recent lesson in The Master's Gate<sup>2</sup> it was pointed out that IAM is the Divine Will. The Will is the Creator. What immense Energy is available to all who would enter through the gate of Divine Being!)

## The Angel Of Resurrection

If you can visualize the Angel of Resurrection standing beside you now. This One is tall, beautiful to behold with crystal light emanating from it. This Angel of Resurrection has been issued to you for the purpose of *changing your body into light.* (The light emanations of crystal will do this.) This Angel is your complement at this time.

# The Unfoldment of The Spiritual Self

The University Papers Volume 70, #74

## Have the consciousness to be free.

The GodSelf is the Creative Power in you, as you accept this. You were born to be creative. You were born to be free. You emancipate yourself by your acknowledgment of the GodSelf. And when you can surrender into that GodSelf and receive Its embodiment through your very veins, you become the Suns of God: the radiation of the divine one.

The process of unfoldment is often misunderstood and/or glossed over. Yet if we could but understand that once we have put our foot upon the Path of Initiation or unfoldment, *God - the Spirit of Be-ing takes over.*

The University, itself, does not accept students until they have begun their first initiation. (Most students come to us between the third and the fourth initiations.) This is because there must be a desire and a determination on the individual's part to take the Bread that Jesus offered, his sacrament of Wine. There must be a desire to become one with the Father-Mother in full.

### Lift To The Stars!

As the student steps on the path of spiritual unfoldment, he or she is moving into his or her God Potential. You must understand that that which we call the mortal mind does not know the way of

God. It cannot for it is stuck within the linear field of up and down, black and white, good and bad, happy and sad. The mortal mind is not subject to the God Mind, that intangible Mind of Spirit: the Mind that was in Christ Jesus.

Thus God's revelations and illuminations cannot be fathomed by the unilluminated mind. How does a mind become illumined? By the force of Spirit, by the Holy Spirit, by Grace.

If you receive revelation and do not subject that revelation (higher understanding) to the mortal "thinking" mind, more will come. The seed must be planted *first* and it will grow as you believe. In other words, when you receive a degree of illumination and understanding that brings you light, *allow that light to settle.* A seed has been planted. Stay focused on Divine Intelligence, the Higher Mind, and further explanation will come. This is quite a different process than thinking a thought to death! You wait for illumination knowing illumination will come. You reach for the stars!

### I Would Have You

As you give way to the Spirit and release yourself -- who you are -- into the Spirit, the Spirit will begin to enter you as Itself! Once that desire of the heart and soul to be one with

God has been released as your deepest wish and your sincere prayer, then the Higher Self, gathering Itself as spiritual dominion, will begin to take over your life as Itself. The path of Initiation calls for the Spirit of God which, in turn, begins the unfoldment into Itself as I AM.

The struggle to hold on to your life in the wake of Spirit intent can only cause much suffering, needless pain. The path is a process of unfoldment and detachment. The indications are always there as to what you must let go of, what changes must occur, and through which door you are to enter. But you must leave the past to do this and leave the attachment to the past and to expectations for a future.

*All your plans must be laid aside for Me. Once you enter the doorway of Spirit, I AM present. I AM the one who is sent. I come as the GodSelf, and I will free you in Me as I declare Myself in you.*

Once the student can understand the process and make a friend of the process, much of the suffering can be avoided. Become a partner with the process that wants to dissolve the personal sense, the

continued on page 6

# The Unfoldment of The Spiritual Self

human personality, the lie. *Go with it.* This is the new psychology and, as we understand this and can let go into the spiritual nature we truly are, the caverns of the soul will open and the ways of the initiate will be shown.

As your heart has called out for God and your initiation has begun into the I AM, there will be no turning back. Oh, you may delay the unfoldment. Yes, you can put it off. But the way has begun and the unfoldment has been started to bring God into your life *as your Self.*

*The soul has cried out and I have heard. I have heard My soul and want to fill it with Myself. "I will and I shall!" may well be the Spirit's cry. For you see, Man must be filled with God and God must know Him/Herself as Man.*

Opening to the Spirit begins the initiation into the GodSelf, the one who I AM. In the spiritual unfoldment, the student releases the unfoldment process from his or her soul that will then begin to dissolve the outer crust that has accumulated -- perhaps through many lifetimes -- called 'the human personality.' *Be it "good" or "bad" the human personality must go! It has no place in Me.*

## Stay With The Process

The Initiate Path -- there is no bargaining here -- is a path into Life Itself. Up to the point of stepping onto the sacred Path of Initiation, the student may wish for a

**continued from page 5**

better and a happier life, a prosperous life, a healthy life. But after the student has begun the initiations into My Spirit, he or she must wish only for a God-life. And this wish will be fulfilled. *I AM the one sent. When you understand that the Path of Initiation is the outpouring of My Spirit and the dissolution of the human personality (sometimes called ego), there will be fewer disappointments and far less suffering, as we move together as My Life unfolding as your life. See the measurement I take of Myself? I AM One.*

Make a friend of the process. The process is very much like an energy wave. It grows and expands in its force and content to the degree the student-initiate has accepted it and responded to it with love and devotion.

You have a path to walk. And it is the spiritual process of God in you unfolding as your consciousness, as your mind and heart, yes, even as your body. On this path of oneness, the thinking patterns change. The God Mind thinks *through* you as the Inner Voice, the Mind that leads and guides the student into illumination and understanding of Truth.

*When you look to Me, I will always answer. You did not come to Me for a better human life. You have come to Me to overthrow the mortal and to stand with Me as the Son!*

*Let your glory unfold now and be lifted into the light awareness I AM. And make a friend of your deliverance; make a friend of the spiritual process; let the wave of My Be-ing embrace you and carry you "home."*

This is the time for the Great Ascension. Will you be a part of this?

## Everything Must Return To One

In truth, healing does not matter really, nor does human prosperity, nor does success.

On the path of enlightenment the GodSelf calls. This call is to full unity of the Self within the Self. As vision clears, the illusion has passed away. There is only one vibrating Itself through all life. That is all that is important, all that is reality. For those of you who have thrust humankind aside and have declared your

intent to actualize the GodSelf as your God Consciousness, the unity of all life becomes your center and your life. When all is said and done, there is no other “healing” but this: the Christ appeared.

*Blessed are they who can come to that place within themselves where I can say: I AM. Then body, mind and spirit are in rapture. It is the Central Sun manifest. And I that AM have returned in you as the light of the world.*

This is the way of the initiate. The way that the master Jesus taught by his own example. And he says to you now: *Come follow me.*

The University School of Melchizedek serves as a guiding hand to those who would enter the spiritual journey: the journey into Life or the GodSelf.

Please inquire if you have not already done so as to lesson materials, including *The GodSelf* and *The Workbook*.

Dedicated to the resurrection *and embodying it*<sup>3</sup> this Angel will be responsible for the forces around you and the illumination that will occur through your embodiment of the light. You work together, my dear ones, to accomplish a miracle. Something that has never occurred on this planet before.

“We are working as one,” says the Angel of Resurrection to you at this moment. Feel the blessing of this Angel. Feel the grace embodying and flowing through this Angel of light and love. Feel this light and love *embodying itself* through every molecule and atom of your being, so that you no longer see your body as constricted, a finite form. But released of its tensions in light. You begin to see the molecules dancing in utter joy of being, and that the Angel of Resurrection now with you is responsible for this, this dance of life.

You now are emerging as light beings with a totally new awareness of the world about you. You are finite no longer. You are vibrating light and love; not from the human perception but from the divine. The mask is torn away.

Visualize now, feel the molecules of your being expanding -- more space between them -- lifting into the precious light energy I AM. And the Resurrection Angel is in charge of this, carefully trained, as the body is reformed into light.

Now you carry the Merkabah awareness. You are passing through into a light vehicle of energy containment after the order of Melchizedek. You are perfected in the Perfection. And you breathe in a whole new dimension of your being, translated into the Spirit Breath as I AM.

The Angels of Resurrection have been carefully trained in the University of Melchizedek. They are here to translate you into light. To Be with you now on planet Earth. Let your former days pass away. The planetary body, too, is experiencing this. The dancing molecules are part of Earth's experience as her body breathes light once again. She becomes lighter and more vibrant in her energy field. She will be as a light upon the cosmos. A released sister of the light.

The ground beneath your feet vibrates lightness. You can move and have your being in light. Let the body now go to light. Come to the placement of your eighth and ninth chakras or centers. Centered in these chakras, you will be far more conscious of who you are and how you should move in this new energy field of divine expression I AM. From this position the ground becomes lighter, the earth less dense. You move by energy (Spirit) now, by light and not by the weight of the human body as you have known it before.

Love each other with such a love that no harm can come to anyone. Be that love that Jesus spoke of. Harmlessness is the first law of Being. Let ascension come! Many of you have been translated into light before. You have felt the light overcoming your body; the density melting away. This is not difficult nor is it a challenge.

You walk together, you and your dedicated Angel of Resurrection. Let this be a new dimension for you, a new reality. You have a new heart.

Your assignment now is to reveal the light. Ancient temples once again appear -- translucent in their being. Angels will vibrate through these temples. Teach only the light. Show many the way. And the Angels of the Darkness will disappear and rearrange themselves into light.

Many of you have ascended before. Ascend now. As you go, many will follow you.

Aren't you tired of this world? Let go. You have overcome death. Walk as pure light. Now. And you will bring a new heaven to earth.

**I received these words from within myself, "Cast no shadow." Perhaps these are your words also, as we, together, enter into the World of Light.**
