

About Patricia Jepsen

Founder and former director of the University of Melchizedek, **Patricia Jepsen (Crystal)** was a pioneer in the expanding spiritual and environmental movements as a writer, lecturer and seminar leader. Teacher and scribe for the Order of Melchizedek and author of *The GodSelf*, she initiated individuals into higher mind consciousness and fusion with the Inner Voice for over thirty years. She addressed many religious and spiritual organizations in the name of the Order and planted the seed of Melchizedek in many parts of the earth. Patricia made her transition into the light in September 2009.

The University outreach continues through the work of dedicated staff, in partnership with the board of The Christ Church of Melchizedek, Inc., a 501(c)(3) nonprofit corporation overseeing the school and its programs. In addition, *The Sanctuary School* (www.thesanctuaryschool.org), an online program for children and youth focusing on heart-based education, continues its service. Founded by Patricia as part of her assignment to reveal the World Mother Office to earth, *The Sanctuary School* provides a much-needed focus on the youth of today, their soul education and general welfare.

About the University

The University of Melchizedek, located in scenic Grants Pass, Oregon, USA, offers a safe and supportive study program for students to realize their God potential. Whether you are new to the spiritual journey or a seasoned traveler on "the path," this school will encourage and reinforce the divine identity within. Courses, books and audio recordings open you to Higher Mind and enable you to understand more fully your place in the Universe.

The primary function of the University is to prepare the serious student for initiation, to present the sacred mysteries of Melchizedek, and to furnish those who have been called Priest after the Order of Melchizedek with the necessary tools that will enable him or her to be that priest in active service.

This is the time of great initiation when the seven veils of creation are to be lifted. It is the time of opening to a new world of creative power and brand new identity. The Priesthood removes the curtain or veil from the outer world that man might see himself as divine.

International School

An international school with a global outreach, the University affords students the opportunity to expand consciousness and make new and interesting friendships from varying cultures and areas of this earth. Study groups are offered in various locations, providing the opportunity for students and teachers to convene together as a focal point for the new world of light. Studies are available online or by mail and offer a balanced presentation and active experience of the Mighty I AM Presence that indwells all peoples alike. Accent is always on the unique identity of the individual as well as the broadening awareness of the Absolute.

Christ Church of Melchizedek

The Christ Church of Melchizedek, Inc. (CCM) is the nonsectarian, nonprofit corporation, a tax-exempt organization for the University of Melchizedek, the Melchizedek School of Consciousness. The University of Melchizedek is the teaching extension of the Melchizedek Order. CCM is not a church but an educational facility that imparts the ageless wisdom of the Great Ones from many disciplines and religions. The term "Christ" within the corporation title indicates the God Seed or the presence of deity within each one of us. It is the presence of the

Sun, the causal stream of enlightenment, and does not denote any preference to religious or philosophical practice.

Words such as "Christ" or "Buddha" or "I AM Presence" mean essentially the Divine One or Creative Principle within us all. At no time does the University of Melchizedek place a preference on one name of Deity. Respect and honor are afforded to all who have tread the path of enlightenment and soul discovery.

The Christian-like language frequently used within the lesson materials is open to your interpretation and deeper understanding. The University of Melchizedek encourages individual soul enlightenment and the revelatory experience of the Higher Mind. It is not static nor is it imprisoned in rituals and guru-like worship. You are the light of your own awareness, the Christ of your own soul.

You are encouraged within the Order of Melchizedek to remember the Universe Creator every moment and to continually relate to God Intelligence as your enlightened mind. This coordinates your thinking process into the higher levels or degrees of consciousness. Communication with God is emphasized as well as integrating the present wandering mind into the personality of divine soul consciousness.
