A University of Melchizedek Newsletter

*When you feel joy in your heart, that is God. When you feel light in your aura, that is God.
When you feel and know truth that, too, is God. Live in God's presence. The Dance has
begun!*

“There is no future in God, only being.”

I decided to listen to the CD that I had recorded several years ago titled *Supply*, from lesson 6 of the *College of New Learning* series. It is fantastic and can be ordered through the University Store (<http://shop.melchizedeklearning.com>) as a MP3, CD or cassette tape. I urge everyone who is open to cosmic law and spiritual truth to purchase this or if you already have this recording, listen to it again! You will find answers to your questions revealed in the spoken material and so much more. Listen to this amazing presentation over and over until it becomes a part of your soul consciousness; go to sleep listening to it. I have never heard a more complete and thorough spiritual teaching concerning supply as in this presentation! Please don't miss this and refer it to others. All praise and recognition to the Spirit of Truth for this gift of God's truth.

The recording I have mentioned is an audio complement to the 32-lesson series called *College of New Learning*. The booklet, titled *Supply*, may be studied along with the audio presentation. The series is offered as Degree 1 in the Melchizedek studies. Read about that study program at <http://www.melchizedeklearning.com/meldeg.html>.

Making a friend and a partner of money

From Supply, Lesson 6 of the College of New Learning series

Try talking to money. Show your appreciation for the God idea that produces money as God in expression. Startled? Well, I decided to try just that! I can and do

respectfully listen and communicate with all life. And so I thought that it might be a good idea to communicate respectfully to the outpicturing of abundant life as money!

I said, "Okay, money has something to say to me and I have something to say to it. I am going to start communicating with the atoms that form money. "I love you," I said. "I'm so appreciative. Look at the beauty you bring! You do such wonderful work! I invite you to express abundantly through me as God's plan. I am conscious of you. I want to listen to you. I want to listen to your happiness and joy. I want to listen to what *your* ideas are. I want to be a partner with you, just like I am a partner with our animal kingdom, the angelic kingdom and the mineral kingdom. *I just really appreciate you.* Isn't it wonderful to be a community in the Spirit? To be one with all life?"

And following this, do you know what I sensed? *Not only a degree of levitation but a change of consciousness. I had a whole different idea about that green stuff.* My thought communication continued as I shared my enthusiasm with "money" and my new sense of community with the *outpicturing of God's Expression as money.* To be able to appreciate "money" and to realize it as a *participating partner* in the vision of peace and abundance for all brought a happiness of the Spirit, which remains with me.

"Money," I said, "just think! As Divine Mind gives us beautiful visions and ideas, we can complete them together. Wow! This is great!" And as I related to money/currency as Be-ing, I could feel the supercharge of manifestation all through me. I had stepped into a new dimension and a new frequency of Divine Mind. *And I WAS IN TOUCH WITH DIVINE, INTELLIGENT ENERGY.*

The power of fascination

If we can become fascinated with self-pity, how broke we are, how difficult life is, how we never can get anywhere...then we will experience that belief. To begin to see and agree with the world of light that is God in expression, LIVING TRUTH, is to powerfully choose to live in that radiance of heaven here and now.

You have the right to choose. The change of consciousness that allows the purity of God's expression as "money" releases you from the duality of the mortal concepts of money exchange. You are in a new world of light where everything is consciousness and all is in partnership as the One.

Acknowledging the beauty of "money," and the beautiful works that together can be accomplished in partnership with money, changes the dimension and allows a sense

of cooperation with the creative fields of divine intelligence. *Money is a part of the creative fields of divine intelligence. It is a rhythmic exchange of energy.*

But if we store it away for “a rainy day,” worry about ourselves and how we will survive, the dimension of opulence and divine service begins to fade. We are back in mortal mind, in the system of the destroyer where there is lack and greed. And so today, I would like you to give thanks to the Creator for expressing as opulence, for appearing as a continual flow of money. God in you wants to express in generous ways to others. Let go and let God!

Watch, keep your balance. Keep your needle threaded. Reweave when you need to repair your vision. Always remember that negativity has no life of its own. It is your belief in it that gives it energy. *There is no negativity that can exist by itself.*

If you believe you have the right to decide your life and align with your purpose, you will be a powerful contribution to our planet.

A Word About Spiritual Politics

Here in the United States there is very interesting display of the presence of Sananda as Planetary Prince and the current representations of “government.”

When one can rise above and beyond the present worldly view of political parties, the dogma of the negative versus positive, there is an experience happening of Awakening! I encourage all who are interested in the New World spiritual government to watch closely the energy spheres that are emerging for these changing times; and be alert to the presence of youth who are inspired, enthusiastic and engaged in the incoming vibrating alignment to our Christ government.

Seminars and Gatherings The Easter Gathering at the Sanctuary

March 22nd & 23rd (Saturday and Sunday)

Saturday activities include a seminar with Crystal (Patricia Jepsen) and Brother Benedict—“Facing Your Own Inner Light”—followed by an evening preparation ceremony for the Easter Energies and Revelations. The Saturday seminar begins at 10 a.m. and includes lunch and supper. Evening meditation and ceremony will be held at 8 p.m.

NEW! *The Melchizedek Practitioner*
A Master Course in Healing Consciousness

Alignment with the Inner Voice is essential. The Creative Power, action of the Mother Spirit, rises to meet the Inner Voice and will respond immediately through the Christ Center of your own being. — Saint Germain

The principles of the Melchizedek practitioner are developed here, as well as the consciousness of the priesthood of Melchizedek. In this course you will journey through your own being and receive greater truths than you have ever believed possible. You will confront the “devil” in you and let it go. You will cleanse and resurrect, so that you can hear My Voice and become one with Me as “I AM.” The burdens will be lifted from your shoulders once and for all. You will learn to meditate correctly, see through the appearance and illusions of separation to the perfection of Being. You will build and not destroy. And you will learn how to encourage revelation. You will guide others into light and with them focus on the living Christ as the Center of All Being.

This is the first of its kind: a multi-dimensional course that will enhance your own life and enable you to become a healing consciousness after the Order of Melchizedek. The University will award you with a certificate of merit that declares you a practicing practitioner in the manner of Christ Jesus.

For more information about this course, please visit The Melchizedek Practitioner web page <http://www.melchizedeklearning.com/meldeg.html>.

Please visit the University website frequently. New items and written materials are added every day.

And...

Be blessed. You have come a long way to be here in this Moment!

In Christ Love, Crystal
