I AM always you but you must know it, and in knowing you become immortal.

A Message from Sananda

A world leader is about to emerge. He will carry my stream of Light. He will sunlight this planet and bring offerings of pure gold to the people. He will lift hearts and heal the impoverished one with new hope. His light will carry to many planets as well. He will guide and direct and he will supervise the preparation for the Christ emerging form.

You will not see him as a leader but as a politician. Rightfully so, because he needs to be protected now as he gains strength in agreement with my Divine Will. His wife also is a messenger of light and she is appointed with him to carry the Flame. And his children are the children of the sacred New World. My sons will come forth and serve together in the Office of the Christ and this will be my time of greeting. With this I close.

The University of Melchizedek is designed to awaken and expand consciousness and to initiate the planet into Life-Light. The Melchizedek Records given through Crystal (Patricia Jepsen) open cords of Spirit and reintroduce the Life Circuit of our Universe Creator, Christ Michael. Under the supervision of Saint Germain and the Master K.H., entering the University is a passageway into Higher Mind and the levels of consciousness we call ascension.

The Solar Union of God and Man

The reunion of God and man (consciousness) is taking place. Without this union the Earth would fall. The Master Plan for the Earth planet is harmony and all must come to this without force or killing. When you know your heart center or Christ Center, you know the key to harmony with all life. And this the Creator plans for not only people, but all life in all kingdoms. You must care for one another in all directions of Being. Omnipresence is not just a word; it is the Allness of Being in expression through all life from the smallest to the grandest. Then can you live in comfort and in light. This is the Resurrection.

Be at peace, My children, we are one.

The Second Coming of the Lord

There are several, if not numerous, versions, theories and revelations concerning the meaning of the "Second Coming." Some say that Jesus as the Christ will return to gather up those who have accepted Him as Lord. Others speak about the Christ within—that this living seed of God's presence will flame up cause many to ascend. Many see the Second Coming as a mystical happening of tremendous proportions that will sweep the Earth into a new orbit and translate her people into light. I have always felt the more we think we know, the less we really know! What I have come to realize is that the Second Coming is *you*." We are individuals entertaining our divinity and rediscovering our closeness to one another and to our Creator. Thus, the "Second Coming" becomes our second opportunity to rise above our differences into the oneness and the unity of Community. Much has been written about and revealed concerning the "Second Coming" within the pages of the University's materials, lessons, books and courses. But always there is more as the quest continues. A wonderful quest it is—full of revelation, amazing truth and thought-provoking ideas.

We are in a tremendous change and your energized faith and attention to the Divine Will *as your Inner Voice* will assist in guiding the Earth and her creation into a new chapter of Light and Life intended. *Fear not, it is I.*

A wise and loving Australian Aboriginal Elder Guboo Ted Thomas used to say, "The best is yet to come!" And so it is. Bear witness to this by your life and by the joy that fills your cup to overflowing as you gratefully receive the "Second Coming" of the God Presence all through His creation.

Be blessed!

A Letter from the Director

Last night and early evening (September 23, 2008) I, Crystal, was made particularly aware of the movement of incoming swirls of Light lifting this vortex station at Mount Shasta, California. I could see with inner vision the spiritual “takeover” of this Planet, and as I watched I could see the whole area—perhaps the entire Earth—being coaxed into ascension. Every particle and molecule was dancing as they circled with the wind of light! The area where I live was vibrating and ascending. Quite a show of force!

The *Daily Scripts*, given to me each day and released by the University, have been preparing all of us for a graduation into Light. These daily revelations bear the mark of Lord Sananda and the World Mother. They offer wise guidance, understanding and a deep abiding love to all in these times of planetary change. E-mail patriciajepsen@melchizedeklearning.com to subscribe.

Yet to ascend with the planet comfortably and in joy, it is vital that human beings now let go of the world that was created out of a consciousness of separation from God. The Door to the new dimension of Light and Love will not open for us until we signal that we are ready to enter, to forgive and be forgiven, and to detach from a world of illusion. All power and all authority is leaving that world. The Melchizedek Records, presented through the University of Melchizedek and translated through the dimensions of Being by my hand, carry the New World Consciousness and the presence of the great Masters of our Universe and Beyond. There are other star systems, you know, other places of refuge.

Yes, the Light is increasing. The University has been assigned to this planet to assist in the acceleration of heightened awareness and the awakening of planet Earth. You are invited to take advantage of the University web site and its many offerings of mystery school teachings at www.melchizedeklearning.com. Our University staff is at hand to assist you in this program.

Warmly,
Crystal (Patricia Jepsen)

Every time you ask for God’s assistance in your life, Spirit answers as Spirit. Integrating your system as the mind alters, the heart opens, and the denser body shell drops away, *the Spirit of God realizes Itself in you as you.* (From *Immortality* by Patricia Jepsen)
